Dissertation

Title: *Type D personality and coping style as predictors of cardiovascular risk*

This study evaluated the relationships between Type D Personality and three measures of cardiovascular risk (heart rate variability, cholesterol, and blood pressure) in a sample of non medical, young adults. Coping style and number of coping strategies used were examined as moderators between personality style and risk factors. *Defense*: March 11, 2009

Advisors: Joseph A. Doster, Ph.D., Joseph W. Critelli, Ph.D. and Paul L. Lambert, Ph.D.

Thesis

Title: *Negative affect, introversion, and physiological markers of cardiovascular disease.*

This study evaluated the relationship between individuals categorized as high in negative affect and introversion and three measures of cardiovascular risk (blood platelets, cholesterol, and blood pressure) in a sample of non-medical, professional adults. *Defense*: April 28, 2008

Advisors: Joseph A. Doster, Ph.D., Joseph W. Critelli, Ph.D. and Paul L. Lambert, Ph.D.
